ARTICULATION AGREEMENT For Logistics

Between
John Tyler Community College (JTCC)
And
Virginia State University (VSU)

For students planning to pursue Information Logistics Technology (INLT) in the College of Engineering and Technology (CET) at Virginia State University

<u>Purpose</u>: This memorandum of understanding has been developed within the framework of the Virginia State Policy on Transfer (http://www.schev.edu/students/StatePolicyOnTransfer.pdf) to facilitate the transfer of credits earned by students with Associate of Science (A.S.) degrees in General Studies – Logistics Specialization at John Tyler Community College into Bachelor of Science (B.S.) degree programs in Information Logistics Technology at Virginia State University. It is intended to provide students enrolled in the General Studies – Logistics Specialization A.S. program at John Tyler Community College admission into the baccalaureate logistics program in the College of Engineering and Technology at Virginia State University. This agreement establishes a partnership between JTCC and VSU for the benefit of students.

JTCC will advertise this program to the general public on its web site. Representatives of JTCC and VSU will call attention to this articulation agreement when advising students. Students who intend to transfer to VSU under the terms of this agreement should complete the Letter of Interest after completing 15 credits at JTCC and send it to the Office of Undergraduate Admissions, 1 Hayden Drive, P.O. Box 9018, Virginia State University, VA, 23806 (http://www.vsu.edu/). Students who complete the Letter of Interest will be contacted periodically by the CET and/or VSU representatives with important information to ensure a successful transfer to CET.

Courses listed in this program will be reviewed, as needed, by the faculty of both institutions to ensure continuity of instruction, curriculum, and evaluation. The attached "Logistics Transfer Program Table" lists the respective transfer credits that will be awarded by VSU for courses offered by JTCC students for transfer under the terms of the Agreement. This table will be updated as curricula evolve. VSU will work with students who have a Letter of Interest on file to ensure that curriculum changes made after the Letter is received but prior to matriculation to VSU will not negatively impact the admissions decision. There is a limit of 66 credits that may be transferred to VSU from JTCC and course equivalency and transfer credits should be limited to those courses required for the student's selected major.

The College of Engineering and Technology at Virginia State University guarantees admission into its B.S. program (Information Logistics Technology) with junior standing to those students in the JTCC Associate Degree in General Studies – Logistics Specialization and who have a minimum cumulative grade point average of 2.75 on a 4.0 scale and no individual grade lower than "C."

CET will consider JTCC students who have not completed the A.S. program for admission into its B.S. programs. However, the course equivalencies as stated in the Logistics Transfer Program Table are based on the completion of the Associate degree program prior to transfer. Course credit cannot be given for transfer courses in which the student earned below a "C" grade. Students who transfer prior to the completion of the associate degree program will have their

courses evaluated individually per the VSU/CET Transfer Guide. Therefore, students are encouraged to complete the Associate degree prior to matriculating to VSU. Students can transfer credits back to JTCC from VSU.

Primary contact for the agreement and related matters at JTCC shall be the Dean of Engineering, Business and Public Services at (804) 706-5115 or Vice President of Academic Affairs at (804) 594-1406. Primary contact for the agreement and related matters at VSU shall be the Dean or the Chair of Technology for College of Engineering and Technology at (804) 524-1141 or (804) 524-1075.
