

## Fiscal Year 2026 Proposed Audit Plan

### Fiscal Year 25 Carryover Audits

| Auditable Area            | Auditable Unit                  | Notes                                                                                                                                                           | Status/Timing                    |
|---------------------------|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| Capital Outlay            | Harris Commons Building Project | Review project for compliance with the Dept of General Services Construction and Professional Services Manual (CPSM) as well as project budget to actuals.      | Currently Underway               |
| Bursar's Office           | Cash Receipts & Operations      | This will be larger than the Bursar's office - we will look at all cash collection points and the controls surrounding those, including Athletics change funds. | Wrapping up - Draft Report stage |
| Athletics                 | Travel                          | Meal Expenses, Hotel Payments, Transportation                                                                                                                   | Not yet started - October 2025   |
| Institutional Advancement | Gift Administration             | Controls surrounding administration of gifts and donations to the University                                                                                    | Not yet started - December 2025  |

### Fiscal Year 26 Proposed Audits

| Auditable Area                                     | Auditable Unit                                                              | Notes                                                                                                                                                                                                   | Status/Timing          |
|----------------------------------------------------|-----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| University Wide                                    | Policy & Procedure Review - this will be an advisory review, not an audit   | Obtain a comprehensive list of policies, determine age & relevance, compare to other universities, determine if procedures exist to implement the policies and the age and relevance of the procedures. | September/October 2025 |
| Public Safety/Information Security                 | Disaster Recovery/COOP/Clery Act (Crime Statistics)                         | Determine process for creating and testing the COOP, coordination with Information Security, and frequency of updates/tests.                                                                            | January/February 2026  |
| Human Resources/University Wide/Info Tech Services | Separation Process/Offboarding - This will be a process review/consultation | Follow transactions through the process from start (supervisor) to finish. Will include how the transactions flow through the system and possible hiccups along the way.                                | April 2026             |
| Registrar's Office/Academic Colleges               | Enrollment                                                                  | Inaccurate attendance can send a student to collections or cause the University to fail to return financial aid or issue refunds for loans.                                                             | May/June 2026          |

## Fiscal Year 2026 Proposed Audit Plan

### Fiscal Year 26 Proposed Information Technology Audits

| Auditable Area                  | Auditable Unit                                    | Notes                                                                                           | Status/Timing       |
|---------------------------------|---------------------------------------------------|-------------------------------------------------------------------------------------------------|---------------------|
| Information Technology Services | IT Policy Review                                  | This is a carryover from FY25 and is currently in process.                                      | Underway            |
| Information Technology Services | 2 Sensitive System Reviews                        | Systems to be determined                                                                        | Throughout the year |
| Information Technology Services | Service Organization Control (SOC) Reports Review | Review SOC reports for our 3rd party IT vendors supplying software as a service (SaaS) products | Continuous          |
