Current Students: Microsoft is upgrading Live@edu to Office 365. With Office 365, you will now have two separate accounts:

University Email Account

You will continue to use Microsoft Outlook Web App to view and send email from your university account, but you will need to sign in using one of the methods below. You will use the same student email username and password that you were using before the upgrade.

- By clicking the Office 365 graphic icon to the right =====>
- Typing <https://www.outlook.com/students.vsu.edu> in your browser.

Virginia State University still administers this account for you with password resets if needed.

Personal Microsoft Account

This personal account will give you access to all your existing SkyDrive content, Messenger, and other Microsoft services. You will use the same username and password to access this account as you do to access Live@edu today. Note that Virginia State University no longer administers this account. As a result, we cannot reset the password for you.

Click "Microsoft Office 365"
